## PROFESSIONAL EXPERIENCE

**Senior Executive, KKC & Associates LLP** **July 2025 – present | Mumbai**

- Designed Power BI dashboards for audit KPIs and partner-wise reporting with Row Level Security (RLS)
- Automated ITGC testing and data extraction workflows using Python & AI (reduced manual efforts by 40%)
- Developed Python-based automation tools to extract and consolidate data from multiple PDFs into structured Excel datasets for analysis
- Worked extensively in CASEWARE IDEA to consolidate, summarize, and financial data for audit and review purposes

**Data Analyst Intern, KKC & Associates LLP** **January 2025 - June 2025 | Mumbai**

- Conducted audit data analysis using SQL, Power BI, Excel, and CaseWare IDEA
- Developed end-to-end analytics solutions covering financial performance, partner utilization, billing, and project tracking
- Created a Python-based NLP tool to summarize long policy and audit documents, enabling faster review of compliance and control-related information

## EDUCATION

- **St.Xaviers College Mumbai**, Masters(M.sc) in Big Data Analytics **August 2023 – June 2025 | CGPA: 9.35/10**
- **B.N.Bandodkar College**, Bachelors of Science (B.Sc) in Mathematics **June 2020 – June 2023 | CGPA:9.25 /10**

## PROJECTS

**Project & Partner Management Dashboard (Power BI)** **January -2026**

- Built an end-to-end Project & Partner Management Dashboard in Power BI with partner-level insights on billing, resource utilization, and project progress
- Enabled year-over-year cost comparison (previous vs. current year) based on total hours and partner-level allocations
- Designed multi-sheet reporting with detailed breakups by ITGC, ITAC, and DA, along with overall financial and workload summaries

**ITGC Automation Tool (Python, Streamlit, Automation)** **September-2025**

- Developed an on-premises NLP-based PDF summarization tool using Python to analyze audit and policy documents without external data exposure
- Enabled document upload, automated summarization, and policy search to accelerate internal audit and compliance reviews
- Reduced manual policy and document review effort by 50% through automated text extraction and summarization
- Automated GST R1 and 3B reconciliation workflows, eliminating repetitive manual checks and improving processing efficiency
- Built a Streamlit application for data extraction, validation, and mismatch reporting, handling 100+ reconciliations per cycle

**Customer Churn Prediction (Machine Learning)** **March-2024**

- Cleaned and preprocessed customer data (handling missing values, outliers, etc.) Implemented various machine learning algorithms (e.g. Decision Tree, Random Forest, XGBoost, Gradient Boost) to predict churn
- Evaluated model performance using accuracy, precision, recall, and F1-score. Optimized models through hyperparameter tuning for better prediction accuracy

## TECHNICAL SKILLS

- **Programming & Data Science:** Python, R, Machine Learning, Deep Learning, Statistical Analysis
- **Analytics & BI:** SQL, Power BI, DAX, Excel, Data Modelling, Data Transformation
- **Automation & Audit:** CaseWare IDEA, ITGC, ITAC, Power Automate, Process Automation
- **Specializations:** Microsoft Power BI, Python Automation, Business Intelligence, Problem Solving, Analytical Thinking

## CERTIFICATES AND COURSES

- Introduction to Cloud Computing, Simpli Learn **January-2024**
- Machine Learning, Great Academy **December- 2023**
